Contents Volume 161 (2000)

SPECIAL ISSUE
PANGEA: THE LATE CARBONIFEROUS TO LATE TRIASSIC INTERVAL

J. Trappe and L. Stemmerik vii

Pangean (Late Carboniferous–Middle Jurassic) paleoenvironment and lithofacies
J. Golonka and D. Ford 1

Pangea: extravagant sedimentary resource formation during supercontinent configuration, an overview
J. Trappe 35

Hot spot activity and the break-up of Pangea
J. Golonka and N.Y. Bocharova 49

Floristic migration in South America during the Carboniferous: phytogeographic and biostratigraphic implications
R. Iannuzzi and O. Rösler 71

Late Palaeozoic evolution of the North Atlantic margin of Pangea
L. Stemmerik 95

Tuffs, tectonism and glacially related sea-level changes, Carboniferous–Permian, southern Namibia
H. Stollhofen, I.G. Stanistreet, B. Bangert and H. Grill 127

Palaeozoic terranes of the Balkan Peninsula in the framework of Pangea assembly
S. Yanev 151

Carbon isotope compositions of the Late Permian carbonate rocks in southern China: their variations between the Wujiaping and Changxing formations
L. Shao, P. Zhang, J. Dou and S. Shen 179

Constraints on provenance of the central European Triassic using detrital zircon fission track data
A. Köppen and A. Carter 193

The stratigraphic and geochemical record of Playa Cycles: monitoring a Pangaean monsoon-like system (Triassic, Middle Keuper, S. Germany)
L. Reinhardt and W. Ricken 205

Cyclicity of Triassic to Lower Jurassic continental red beds of the Argana Valley, Morocco: implications for palaeoclimate and basin evolution
A. Hofmann, A. Tourani and R. Gaupp 229

Incised submarine canyons governing new evidence of Early Triassic rifting in East Greenland
L. Seidler 267

Research Papers

Quantifying the role of geographic change in Cenozoic ocean heat transport using uncoupled atmosphere and ocean models
K.L. Bice, C.R. Scotese, D. Seidov and E.J. Barron 295

Late Weichselian and Holocene palaeogeography of the Rhine–Meuse delta, The Netherlands
H.J.A. Berendsen and E. Stouthamer 311

Benthic foraminifera as proxies of organic matter flux and bottom water oxygenation? A case history from the northern Arabian Sea
M. den Dulk, G.J. Reichart, S. van Heyst, W.J. Zachariasse and G.J. Van der Zwaan 337

High-resolution magnetostratigraphic and lithostratigraphic correlations in Middle Triassic pelagic carbonates from the Dolomites (northern Italy)
P. Brack and G. Muttoni 361
Isotopic signals in two morphotypes of *Globigerinoides ruber* (white) from the South China Sea: implications for monsoon climate change during the last glacial cycle
L. Wang, ... 381
Increased terrestrial carbon storage across the Palaeocene–Eocene boundary
D.J. Beerling 395
Rapid oscillations in western North America vegetation and climate during oxygen isotope stage 5 inferred from pollen data from Santa Barbara Basin (Hole 893A)
L.E. Heusser 407
Terminal Pleistocene wet event recorded in rock varnish from Las Vegas Valley, southern Nevada
T. Liu, W.S. Broecker, J.W. Bell and C.W. Mandeville 423
Kalkowsky's stromatolites revisited (Lower Triassic Buntsandstein, Harz Mountains, Germany)
J. Paul and T.M. Peryt 435
Ocean-surface and wind dynamics in the Atlantic Ocean off Northwest Africa during the last 140 000 years
J.-A. Flores, M.A. Bárcena and F.J. Sierro 459
